Art Unit: 1712

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lindsay Adams on 3/10/05.

The application has been amended as follows:

In the first paragraph of the specification after "September 25, 2000" insert --- now Patent Number 6,518,496 ---.

Cancel claims 22 and 23.

The following is an examiner's statement of reasons for allowance:

The canceled claims conflict with those of US6780927. Obviousness double patenting over this reference is not warranted because its claims are limited to thermally conductive particles. The reference lists the instantly claimed particles as electrically conductive.

An obviousness double patenting rejection over US6518496 is not applicable because the patent is limited to pastes. Pastes cannot be considered pads.

Yano does not suggest the currently claimed particles. Note that claim 17 is interpreted as requiring Ni, Ag or Au coatings on whichever particle/powder is selected. This is consistent with the specification (page 5 line 22).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Buttner whose telephone number is 571-272-1084. The examiner can normally be reached on 10:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on 571-272-1302. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
